PREVENT YELLOW FEVER
by using
MURRAY'S FLUID MAGNESIA

The standard preventive against the perils of a tropical climate, counteracting the effects of excessive heat and normalising the functions of the stomach, intestines, liver, and kidneys. Cures headache, acidity of the stomach, biliousness, gout and rheumatism in its less acute forms. Mixed with their milk, it prevents bowel-troubles with children. It is also a valuable relief for women *enfante*. Pleasant and refreshing, it can be taken freely as a beverage, and is the only alkaline draught that forms no dangerous deposits in the stomach, intestines and bladder.

For this important contribution to medical science and practice, Her Britannic Majesty conferred the honor of Knighthood upon its inventor, Sir James Murray, M. D. His signature written with green ink, is found upon the label of every genuine bottle.

Price, in all pharmacies,

SANTA THERESA HILL,
Rua do Aqueducto No. 108,
Telephone 808

Is served every 15 minutes by the electric tram-cars line from the town (leaving the Largo do Carrioca) close to the doors of this hotel, and Silves.

This establishment, the first in Brazil, for its elegance, comfort and situation amidst forests and enjoying the most magnificent scenery view of the mountains, town, the harbor and high sea, is most suitable for families and gentlemen of distinction.

Excellent restaurant, always ready.

Finest wines and liquors. Numerous shower and warm baths. Fresh air, temperate breeze and invigorating.

No health resort in the world is better.

For further information apply to FERNANDO MENTGES,

ASSOCIADA 72. Telephone 108.

HOTEL RIO DE JANEIRO GEORGE'S Lunch Room and Restaurant.

Recently renovated and improved throughout. The most conveniently located restaurant in the city, being situated in the heart of the banking district and within a minute's walk of the Praça and Postoffice. Special pains taken to provide a first-class table and prompt service.

SEA SICKNESS

20 cases were treated on board a.s. "Olimpo" by Dr. Ernani Pinto with Tincture of Nectandra and of these, 22 cases were completely cured and the remaining four being partially relieved.

The illustrious naval surgeon Dr. Henrique Manoel says that "during voyages on men of war I have had occasion to use Tincture of Nectandra Amara of Mr. Antero Lobo, for sea sickness and always with excellent results."

Numberless testimonies of travellers justify the results obtained by these distinguished physicians, with the Tincture and pills of the Nectandra Amara against seasickness.

In order to facilitate the use of this medicine a preparation is accompanied each bottle written in the Portuguese, English and French languages.

N.B. The Nectandra Amara pills are formulated with the same doses of the tincture and contain the same percentage to be sent by mail all over the world with the least possible delay to supply the want of the Wine, Elixir and Tincture of Nectandra Amara, which are liquid and cannot, therefore, be transported by the same rapid and sure means.

For sea sickness, nausea in pregnancy, impoverishment of blood, weakness of the legs, debility, consumption, coughing and various illnesses the pills should be ground and dissolved in a small glass of Port wine in order that they may be taken as a remedy to insure a prompt cure. If it fails to do so, take for adults one or two children who cannot take dry pills, and in this case they can be dissolved in pure water if no wine is to be had.

Persons who have no connections abroad who may desire to have these most useful pills can obtain them by applying to the proprietors, who undertakes to remit orders by registered post to any port in the world, or abroad, for the small sum of \$200 per box, \$24500 for 60 and \$20500 for 12 boxes.

RIVER PLATE ITEMS

According to a telegram of the 8th inst., the United States Consul at Buenos Ayres, Mr. Baker, died on that day in consequence of the accident of which we gave an account in our last issue. Mr. Baker was one of the most active and efficient consular officers of the United States and his death will be greatly and widely lamented.

The Grand Jubilee Ball at Prince George's Hall in aid of the Victoria Convalescent Home in Buenos Ayres on the 9th ult. was a brilliant success. Almost every native family in the city was represented at the gathering, which was one of the largest that has ever assembled at the Hall. It is estimated that the sum thus obtained for that charitable purpose will amount, after all expenses are paid, to about four thousand dollars. Among the guests especially invited were the following: — H. B. President of the Republic, Dr. Uriburu H. E. the Minister of Finance, Dr. Escalante; H. E. the Minister of Justice, Dr. Bermudo; H. E. the Minister of Interior, Dr. Quiroga Costa; H. E. the Minister of War, General Levalle; H. B. M. Minister, Hon. W. A. C. Barrington; U. S. Minister, Hon. W. J. Buchanan; British Chargé d'Affaires, Mr. Thornton; Russian Minister, Mons. De Goyer; Chilean Minister, Dr. Walker Martinez; Chief of Army Staff, General Godoy; Chief of Police, Dr. Beasley; Commander and Officers of H. M. S. "Bengal" Commander and Officers of U. S. S. "Castile" Commander and Officers of Arg. "Buenos Aires"; Commander and Officers of Arg. "Umbria".

It is gratifying to be assured that we were not mistaken in supposing that the president

GLYCERIO'S MANIFESTO

The manifesto of Congressman Glycerio, published in some of the journals of this city on Sunday, contains important disclosures. Prudente de Moraes, it appears, became very much disheartened and seemed to wish to withdraw from the presidential contest, being convinced that the election would not be permitted or that, if perchance, it should be held, the candidate elected would not be allowed to take office.

Dr. Benardino de Campos, then president of S. Paulo, and other prominent politicians were in favor of postponing the election, which, indeed, as we are led to infer, would not have been held on the 1st of March, 1894, had it not been for the tenacity of Glycerio himself and the prompt and timely action of Dr. Pedro Vilho who was at that time governor of Rio Grande do Norte.

It is gratifying to be assured that we were not mistaken in supposing that the president has never been in harmony with the Jacobins, whom, as Glycerio's manifesto shows, he thoroughly distrusts. It is no less gratifying to learn that he has always been friendly to the ex-revolutionaries and that in 1895 he actually threatened, as was reported at the time, to resign unless congress voted the amnesty bill, whose restrictive clauses he moreover strongly opposed.

These disclosures are very interesting and would be still more so, if they were complete, for they would then show that President Prudente de Moraes was perfectly justified in thinking that there was a plot to prevent him from taking office.

Glycerio attacks Campos Salles, president of the State of S. Paulo, insinuating that the latter did not become a prudentista until he was promised that the presidents friends would make him their candidate at the presidential election to be held on the 1st of next March.

On the whole the manifesto will, we think, contribute to strengthen the confidence of the conservative classes in the president of the republic.

RIO DE JANEIRO, JULY 13th, 1897.

IN the present disturbed state of the country there is one class of citizens whose exemplary attitude cannot fail, we think, to win the admiration and approval of all impartial and thoughtful observers. We refer to those who directly or indirectly aided the federalist movement in Rio Grande do Sul and the naval revolution which began on the 6th of September, 1893.

The character of these two movements was essentially conservative, and their common purpose was to remove all cause of disturbance by relieving the country of the illegitimate and baneful pressure that has prevented the people from enjoying the benefits of self-government. Although they were not successful, they did not entirely fail, for the purpose by which they were guided has survived and is apparently about to be adopted by the powerful party that is organizing in defence of the President of the Republic.

Of the important events that are now occurring the ex-revolutionists are calm, but not uninterested, spectators. For the sake of the idea which inspired them they are, with rare exceptions, enduring with courageous and cheerful resignation the manifold unmerited sufferings that are inflicted upon them by injustice, misrepresentation and detraction. Preserving in the midst of all political vicissitudes their autonomy and solidarity, they will, as soon as they become convinced of the sincerity and earnestness of the president's followers in espousing the cause for which they struggled and for which they continue to suffer, take the place, which rightfully belongs to them, in the front rank of the vanguard of the party.

— Although Campos Salles carefully refrains from defining his position, his action has been favorable to Prudente de Moraes, to whose support he is now, apparently, definitely committed.

— Gov. Luiz Viana denies that he intends to relinquish the government of Bahia, either permanently or temporarily. He contradicts the report of having asked the State legislature for a leave of absence.

— The commandant of the Ceará military school has resigned. In consequence of the mutiny for which the majority of the cadets have been detached from the school the number in attendance has been reduced to 65, of whom 32 are officers.

— In S. Paulo, Dr. Marcellina Xavier, who is

LEGISLATIVE NOTES

JULY 5.—Senate.—Considerable time was consumed in discussing the telegram to the *Platz* from Buenos Ayres.—*Chamber of Deputies*.—There was received a communication from the minister of justice in regard to the alleged espionage to which Vice-President Manuel Victorino is said to have been subjected. Deputy Barbosa Lima censured the government for not publishing news from the war in Bahia.

JULY 6.—*Chamber of Deputies*.—There was another trial of strength between the prudentistas and gliberistas, the former presenting as their candidate for 1st secretary Deputy Julio de Mello and the latter Deputy Theotonio de Britto. The vote was as follows:

Julio de Mello,	83
Theotonio de Britto,	83
Correia da Fonseca,	1

The proceedings afterwards became disorderly and the sitting was suspended for 25 minutes. The bill appropriating the sum of \$110,000 for arrears of pay for officers who had been illegally retired from the service by Marshal Floriano Peixoto was voted in 3rd discussion.

JULY 7.—*Chamber of Deputies*.—The prudentistas succeeded in electing their candidate for 1st secretary. The vote was as follows:

Julio de Mello,	85
Theotonio de Britto,	5
Blank,	17

PROVINCIAL NOTES

The *Diário de Santos* says that during the last six months no arms whatever have been received at that port from Buenos Ayres.

At Ouro Preto the superior court of the state of Minas Geraes is making preparations to remove to Belo Horizonte, the future capital.

The report that Col. Carlos Telles will be presented by the adherents of Julio de Castilhos as their candidate for governor of Rio Grande do Sul is once more circulated.

We have to record another eclipse of Brazilian civilization. On the night of the 4th inst., the printing-office of the *Folha de S. Paulo* was attacked and destroyed.

Judge Alcides Lima has again decided that Julio de Castilhos' jury law is unconstitutional, and Castilhos, it is stated, is again going to cause the judge to be prosecuted.

— Although Campos Salles carefully refrains from defining his position, his action has been favorable to Prudente de Moraes, to whose support he is now, apparently, definitely committed.

— Gov. Luiz Viana denies that he intends to relinquish the government of Bahia, either permanently or temporarily. He contradicts the report of having asked the State legislature for a leave of absence.

— The commandant of the Ceára military school has resigned. In consequence of the mutiny for which the majority of the cadets have been detached from the school the number in attendance has been reduced to 65, of whom 32 are officers.

— In S. Paulo, Dr. Marcellina Xavier, who is

[July 13th, 1897.]

—On the 7th inst., in S. Paulo; Congressman Glycerio called a meeting of the members of the State executive committee and proposed that they should all resign so that the local committees might elect their successors. None of the members voted for the proposal except its author.

—On the 10th inst. the partisans of Congressman Glycerio, in the State legislature of S. Paulo, began to abandon their hitherto dubious attitude and to openly attack, not only the government of President Prudente de Moraes, but also that of Dr. Campos Salles, president of the State.

—At the election held on Sunday ex-Minister Alberto Torres was elected president of the state of Rio de Janeiro. At Campos there were some disturbances, Congressmen Niló Peixoto's father being pretty roughly handled. At S. João da Barra there was also a disturbance, the ballot-box being broken.

—We believe that the full text of Congressman Glycerio's speech in S. Paulo on the 7th inst. has not been published. In some of the reports that we have seen he is said to have accused President Prudente de Moraes of ingratitude, hypocrisy and cowardice and to have asserted that the only true republicans are the Jacobins.

—A telegram received yesterday from S. Paulo states that Councillor Rodrigues Alves has telegraphed to Dr. Diogo Bueno, contradicting the statement made in Congressman Glycerio's manifesto in relation to a mission to Dr. Campos Salles. This refers to the insinuation contained in Glycerio's message in regard to Campos Salles' having declared himself a prudentista after receiving the offer to make him a candidate for the presidency of the Republic.

RAILROAD NOTES

—On the 7th there was another collision on the Central Railway.

—There are said to be 6,000 pieces in the modern high class locomotive.

—It is expected that up to the end of the month connection will be established between the Sapucaí and Mogiana railways.

—A telegram of the 7th inst. states that on the Chilian government railways robberies amounting to 2,000,000 pesos have been discovered.

—Decree No. 2339, of the 5th inst., authorizes the Companhia Bahia e Minas to transfer to the Banco Constructor the charter of the railway from Victoria to Pernambuco.

—It is stated that planters residing in the vicinity of Campo Alegre, S. Paulo, intend holding a meeting for the purpose of asking for a reduction in freight rates on railways.

—In view of the reports that have been circulated in regard to the sale of the Paulista railway the secretary of the Rio Claro S. Paulo Railway Co. has stated that in the event of the purchase or expropriation of that railway the value of the 5% bonds, amounting to £ 2,722,500, which were issued to the latter company, must, in virtue of the terms of the deed of mortgage and of the bonds themselves, be immediately paid in cash at par.

COFFEE NOTES

—The coffee imported from Brazil into the United Kingdom of Great Britain and Ireland for the 5 months ended May 31 was valued at £ 61,830 against £ 27,258 for the corresponding period of 1896.

LOCAL NOTES

—Senator Quintino Bocayuva is reported to be preparing a manifesto.

—The government has changed the commander of the fort of S. João.

—We learn that Mr. Conger, the new United States minister is expected to arrive here on the 20th inst.

—The *Gazeta de Notícias* very properly censures the violent and insulting language which congressmen have recently been using towards each other.

—Dr. Pedro Meacy has telegraphed to his representatives in Porto Alegre to sue for slander the proprietor of the journal *Federação*, organ of Julio de Castilhos.

—The prudentistas deserved the reverse which they suffered in the chamber of deputies on last Tuesday. They should not have presented such a candidate as Julio de Melo.

—It is stated that the recent changes in the commanders of the forts at the entrance of the harbor are due to discoveries made in the investigation of the facts relating to the mutiny at the military school.

—The commanders of the torpedo boats *Gustavo Sampaio* and *Silveado* have been acquitted by the court-martial by which they were tried on account of the collision between those two torpedo boats.

—The minister of war probably smiled long and loud when he received Deodécimo Martir's letter asking for arms for the battalion into which, as Deodécimo asserts, the jacobin club has been converted.

—On Thursday throughout Brazil the Portuguese celebrated the fourth centennial of Vasco da Gama's celebrated voyage to India. In commemoration of the event they are subscribing to a fund for building a first-class war vessel, which they will present to the Portuguese government.

—On Friday the board of directors of the Associação Commercial adopted a motion congratulating the Portuguese residents in Brazil on the fourth centennial of the departure of Vasco da Gama's fleet from Lisbon for India.

—With Jacobins constantly howling at the president of the republic and congressmen howling at each other in the chambers amidst the howls of derision of the public, Smith says that the present political situation is a howling shane.

—The cricket match between The Club Brasileiro de Cricket and the United Kingdom will be played on Sunday next, July 18th, and as both sides are strongly represented everything points out to a tough struggle for victory. The match will start at 11 a.m. sharp.

—A captain and two ensigns of the police brigade were arrested on Thursday. These officers took part in the jacobin demonstration on the anniversary of Marshal Floriano Peixoto's death and an investigation of their conduct is said to have shown that on that occasion they committed acts contrary to discipline.

—The *Páiz* still endeavors to prove that arms have been shipped from Buenos Ayres to Santos and Bahia; but the Brazilian minister at Buenos Ayres contradicts the statement, and the customhouse authorities at Santos and Bahia say that no arms have been withdrawn at either of those places without the permission of the commanders of the military districts.

—The jacobin press censures President Prudente de Moraes for holding in readiness the naval force at this port and the police and military garrison of the city. We think, however, that no candid and judicious person will hesitate to acknowledge that the government cannot, without loss of prestige and honor, fail to take all legal precautions in its power to prevent the recurrence of the disgraceful scenes that ensued after the defeat of Moreira César.

—Congressman Coelho Lisboa states that the following exchange of courtesies took place in the chamber of deputies between him and Congressman Benito de Andrade: "B. de A. : «No one in S. Paulo has ever read a journal edited by Your Excellency.» — C. L. : «What Your Excellency is saying is falsehood. I never was a journalist and Your Excellency's insult fails to reach me.» — B. de A. : «Your Excellency is insolent and presumptuous. I say it here, and on provocation I will say it elsewhere.» Dr. Benito de Andrade asserts that he then retorted: «I am at Your Excellency's orders elsewhere as well as here.»

MARRIAGE

ESTILL — JEAVONS.—On the 15th June, at St. Michael's, Bedford Park West, Harry George Estill, of Rio de Janeiro, to Edith Jeavons, of Bedford Park.

ANTONIO CONSELHEIRO.

From the mass of confused and conflicting reports that have been received from Bahia it is impossible to extract a connected and trustworthy account of what has occurred at Camudos, the stronghold of the fanatic Antonio Conselheiro.

It seems that the government troops have occupied and fortified a hill (known as Favella or Favilla) 2,500 metres (about a mile and a half) from Camudos, and that from that position they have been constantly harassed by bands of Conselheiro's followers hidden in the neighboring woods. Many reports are circulated in regard to the respective losses, but, in our opinion, none of them are worthy of belief. Among the army officers whose death is reported are Col. Thomas Flores, commander of Moreira César's old battalion of infantry (the 17th), which is said to be completely annihilated, and Col. Sacupira, the commander of the 12th.

Gen. Arthur Oscar, the commander of the government troops, is stated to have telegraphed to his wife that he will storm Camudos on the 20th inst.

The jacobin press has published telegrams asserting that the soldiers are suffering for want of supplies; but in yesterday's *Diário Oficial* the government asserts that Gen. Arthur Oscar has, from the beginning, been authorized to make the necessary contracts and other arrangements for obtaining everything that he requires and that up to the present he had not reported his inability to do so.

The government adds that on the 7th inst. Col. Medeiros and his brigade left Monte Santo for Camudos with 600 horses and 150 pack-mules loaded with farinha and salt. Private telegrams, published in the Jacobin journals, say, however, that up to the 8th Medeiros was still at Monte Santo.

According to the government's statement there is an abundance of ammunition at Bahia, Queimadas and Monte Santo.

To the latter place the governor of Bahia is rapidly sending reinforcements, 270 men having gone on one occasion and 150 on another. On the 11th inst. another force, said to be large, the number, however, not being stated, took the train for Queimadas.

Arthur Oscar is reported to have asked for reinforcements of regular troops, but the government does not appear to have received such a request, and it asserts that, on asking Col. Medeiros whether reinforcements are required, it was informed by him that he had received no instructions on the subject from the commander of the army.

THE DIAMOND JUBILEE CRICKET MATCH, RIO DE JANEIRO

THE OLD STAGERS VS. THE NEW COMERS.

This match, which had been twice postponed, finally took place on the 4th July. The weather was splendid, and there was a large attendance of spectators, amongst whom was the venerable Visconde de Barbacena, the fair sex was also strongly represented. Considerable care had been taken to prepare the ground for the occasion, there being a fine display of bunting, and a decoration of a more lasting description in the shape of a large V. R. painted on the side of the quarry, by the hand of an enterprising Britisher.

The pitch was everything that could be desired, hard and true, and at mid-day the Venetians, having won the toss, sent their opponents to the wickets — Messrs. Unwin and Wucherer facing the bowling of Messrs. A. Lopes and Wheatley.

In Lopes' first over he bowled Unwin, and on Reeves joining Wucherer a long stand was made, during which very careful cricket was displayed.

A double change of bowling was tried, and with the score at 31 Reeves "played on" Brookings was the next bowler, and he made a long stay with Wucherer, who with the score at 46, was bowled by Morrissey by a carefully played 20. Brookings succumbed to a good ball from Wheatley, and the rest of the side was all out for 74, a result due in a great measure to the fine bowling of Morrissey, whose analysis read 8 wickets for 9 runs.

The Old Stagers commenced batting at 3 o'clock, being represented by Messrs. Skeggs and V. Lopes. The latter left with the score at 4, was succeeded by Webb, the score being taken to 14, when Skeggs was bowled by Conolly for 10. Morrissey did not stay long, and A. Lopes was unfortunately run out; but when Wheatley joined Webb the cricket became more lively, the newcomers sending three successive hits to the pavilion, shortly after which he was well caught by Moura, at cover point, for 12, the score then standing at 37. The best stand of the innings was then made by Webb and G. Nicolson, the former retiring at 59, and giving place to F. S. Yule who with Webb raised the score to 66, when the latter was bowled by R. Robinson for a very nicely played 18. Wilnot coming in next quickly hit off the runs, and the whole side was finally dismissed for 87, and the match terminated in the midst of general applause.

On the side of the New Comers, Mr. Bunn acting as scorer.

BUSINESS NOTES

—Two of the banks at Pará have decided to increase their capital.

—Capitalists and merchants in Ceará speak of establishing a new bank in that city.

—A telegram of the 7th inst. from Valparaíso states that 1,000 unemployed operatives have applied to the Brazilian consul for passage to Brazil.

—The municipal government of this city is calling for tenders for furnishing 475 vehicles of various classes, 370 sets of single harness and 5 sets of double harness. These tenders will be received up to Oct. 2.

—The state government of Pará has invalidated the contract with the Companhia Oriental de Imigrantes e Comércio for the introduction of Japanese immigrants into the State. In justification of this action it is alleged that the company has failed to perform in the time fixed in the contract the obligations which it assumed. It is said, however, that the company refuses to accept the decision of the government, against which it is stated to have brought a suit.

—On last Wednesday Messrs. Areus Bros. of this city signed a contract for lighting Pocós de Caldas with electricity.

—Imaging a clerk trying to sell an article to his own "boss" and actually accomplishing it and winning an increase of salary as a reward! That is what happened recently in one of the branch stores of Lipton, the great English grocer and provision dealer. He has so many clerks that some of them do not know him by sight. It was one of these latter who called Mr. Lipton's attention to a fine specimen of poultry as he was walking through one of his stores, and the clerk was so earnest and ardent in extolling his wares that finally the customer ordered it to be sent to his residence. When the address was given the energetic clerk, and he found that he had been pressing the goods upon his own employer, he nearly had a fit, but soon recovered upon being informed that his assiduity had earned him an increase of pay.

FINANCIAL NOTES

—The customs receipts, at Ceará amounted during the half year ended June 30 to 18,300,887\$666 against 9,174,883\$63 in the first half of 1896.

—The budget committee of the S. Paulo chamber of deputies estimates the revenue of the state for 1898 at 41,762,000\$000 and the expenditure at 41,610,374\$52.

—The customs receipts at the port of Rio de Janeiro for the first half of the present year amounted to 48,000,000\$ against 62,891,000\$ in that of 1896.

—By executive decree No. 10,161, of the 30th inst., the State government of Minas Gerais makes deficiency appropriations for various branches of the public service, to the amount of 653,551\$036.

—The budget committee of the mint has been ordered to send to the treasury all the documents relating to the purchase of silver effected some years ago in the United States by Minister Salvador de Mendonça.

—On the 17th ult. One thousand floated in London a £ 1/3,000,000. The applications reached £ 5,447,963, and the prices offered varied from £ 95 to £ 109 10s. 6d., the price in London a £ 95 10s. and £ 98 respectively.

—The budget committee of the Chamber of Deputies of S. Paulo estimates at 27,000,000\$ the revenue to be derived next year from the duty on coffee that will be exported from the State. Deputy Hercílio de Freitas, Congressman Glycerio's son-in-law, said, however, in a speech which he made in that chamber on the 10th inst., that the revenue to be derived from that source will not exceed 22,000,000\$. His calculation is as follows:—Quantity of coffee to be shipped, 50,000,000 bags; value of same at 10s per arroba, or 10s per bag, 500,000,000\$; duty of 11/10 on that value, 22,000,000\$.

—The *Financial News* very judiciously remarks that the increase in the military budget of Brazil, involving large foreign expenditure, has been a factor of no small consequence in the ruinous decline in Brazilian exchange. It adds that some of the Brazilians have begun to realize the financial and political danger of this military expansion. President Moraes and several of his Ministers have taken alarm, and are making futile attempts to check it. A reduction of the standing army was one of the strong points in the official programme of the current session; but, urged as it was by the Government, it seems to have no chance of success. The army rose against it, and the Government had not courage to risk a conflict with the army. Instead of being reduced, the military establishment is more likely now to be increased.

—It is stated that at the cabinet meeting held on Friday the president of the republic and his ministers discussed the financial situation of the country. It seems to have been decided that every minister should carefully examine the items of expenditure appertaining to his department and duly report the reductions which he finds it possible to make. It was suggested, we learn, that the lunatic asylum should be transferred to the Misericórdia association and the faculties of Rio de Janeiro, Pernambuco, S. Paulo and Minas Gerais to the respective State governments. It was moreover proposed, it is said, to increase postage rates, the freight and passenger rates on government railways and the price of telegrams on government lines. At 2 o'clock p. m. the budget committees of the two houses of congress and the executive committee of the prudentista party had an interview with the minister of finance and on this occasion the same subject is supposed to have been discussed.

EXCHANGE.

July 6.—The banks opened at 7½/10, and the market appeared to steady, with no abundance of money at 7¾%. About mid-day the report spread that there were some restrictions placed on the telegraphic service, and the exchange market was set by a number of banks for 7½/10, and the market rallied. It was not easy to obtain bank sterling at 7½/10, and business was done at this rate, in the street, in other paper. The Brasilianische Bank had 7½/10 posted, and the other foreign banks withdrew their tables, without looking rather serious for a time. Then the Brasilianische Bank began to draw at 7½/10, and the market fell slightly, but the other banks did not follow. Some sellers quoted 7½/10, and others, with a certain, with 7½/10—7½/11. There was a very considerable business reported at the extremes of 7½/10—7½/11 for banks and 7½/10—7½/11 for other sterling. The market showed some signs of recovery, with a number of sellers at 7½/10—7½/11, and gold at 35½%.

July 7.—The market appeared to have recovered in equilibrium, with 7½/10—7½/11, and bank sterling was to be had at 7½/10, and in the course of the morning the English banks all posted this rate. At first there were bills at 7½/10 and money at 7½/10, and the market was former showed some tendency to fall, and tendency to rise, and business took place at various rates, until at the close, bank sterling was quoted at 7½/10—7½/11 and other bills at 7½/10—7½/11 with buyers, for ready bills only, at the last quotation. The day closed with 7½/10—7½/11 for bank and 7½/10—7½/11 for other sterling. It was said the scare yesterday cleared up some impending liquidations, and was not likely to return. The market was still protracted, the North American reported in sovereigns on the street, notwithstanding a small lot of gold was sold at 35½%.

July 8.—The market was decidedly firm with 7½/10—7½/11, and with other bills offered at 7½/10, and something was done. During the morning rates advanced steadily until 7½/10—7½/11 were reported for bank and other sellers. The somewhat demand appeared in numbers of a disquieting character, and the banks showing hesitation, which was certified by the London & River Plate bank substituting 7½/10 for 7½/11 in its table, and business was said to have been done at 7½/10—7½/11. The London & Brasilian Bank, however, furnished bills for "gold unopen" at 7½/10 sterling, and the "outsiders" then bid for other bills, but the market closed at 7½/10—7½/11 for certain of 7½/10—7½/11 for bank, and 7½/10—7½/11 for other sterling. The market was not much done at 7½/10—7½/11 for bank and 7½/10—7½/11 for other sterling. There were neither bids for, nor offers of sovereigns at the Indian, nor the street sovereigns were quoted at 7½/10—7½/11, and gold at 35½%.

July 9.—The official rate of 7½/10 was quoted from the market opened, but there was not much stock-borne in rates, and in any case, nothing done. There was a little hesitation attached. During the morning it was said business was done between the banks at 7½/10, and later the English banks posted 7½/10, which was generally understood afterwards, and rates advanced at 7½/10—7½/11, and something was done at 7½/10 in other sterling. In the afternoon everything seemed quiet, and bank sterling was obtainable, in small amounts, at 7½/10, but the market was not done, and some effect of 7½/10 in the banks was noted before business closed the tendency improved, and the last quotations were 7½/10 for bank and 7½/11 for other sterling. As a whole the day's business was not very active, and the street sovereigns were quoted at 7½/10—7½/11, the Banks closed the market at 7½/10—7½/11, and gold at 35½%.

July 10.—The official rate of 7½/10 was unchanged when the market opened, but there was not much stock-borne in rates, and in any case, nothing done. There was a little hesitation attached. During the morning it was said business was done between the banks at 7½/10, and later the English banks posted 7½/10, which was generally understood afterwards, and rates advanced at 7½/10—7½/11, and something was done at 7½/10 in other sterling. In the afternoon everything seemed quiet, and bank sterling was obtainable, in small amounts, at 7½/10, but the market was not done, and some effect of 7½/10 in the banks was noted before business closed the tendency improved, and the last quotations were 7½/10 for bank and 7½/11 for other sterling. The market was not done, and perhaps among the banks. About 1 o'clock the weakness had appeared, but before the close, the market had recovered, and the market compensated to show greater movement, drawing with conditions, at 7½/10 at which bills were then offered, and the close was at 7½/10 with bank quoted at 7½/10—7½/11 and other paper at 7½/10—7½/11. The market was not done, and the last quotations reported comprising bank sterling at 7½/10—7½/11 and other paper at 7½/10—7½/11. Sovereigns were quoted at the street at 7½/10—7½/11; the Banks closed without offers, or bids.

NECTANDRA AMARA

The discovery of this wonderful product of the Brazilian flora has furnished a powerful and efficacious remedy not only for sea-sickness, but also for the malady fit in pregnancy and that which results from the motion of the train on railways, as well as for such diseases of the stomach and bowels as require a good tonic, carminative, diuretic or regenerator for promoting reparation.

The "Nectandra Amara Pills" are prepared with all scientific precautions for their perfect preservation and are put up in strong boxes, so that they may be forwarded by post in fulfilling orders from all parts of the world. They are accompanied with printed directions in three languages—Portuguese, English and French—so that their therapeutic effects and the manner of taking them may be readily understood.

All orders addressed to the manufacturer, accompanied by the money and the post-office address of the applicant, will be promptly filled and the pills will be forwarded, registered by post, at the following rates:—Per single box, \$2.00; per half dozen boxes, \$12.00; per dozen boxes, \$24.00.

Address of manufacturer—Joaquim Bueno de Miranda, Rua de S. Pedro, N. 72 1/2, ouidor, Rio de Janeiro, Brazil.
